Vinification and Maturation

On arrival at the winery, the bunches are destemmed, delicately pressed, and then stay macerating for 1-8 hours. After natural settling, the must undergoes its alcoholic fermentation in temperature-controlled stainless steel vats. The wine then matures until it is ready for bottling.

Tasting Notes

Pale yellow in color. A fine, delicate, sweet nose of wildflowers: chamomile, elderflower, and iris. Mineral on the palate, with an aftertaste of sweet almonds.

The Story of the Label

The label is simple, adorned with a frieze taken from a book of neoclassical designs. The lettering is in a 17th century style.
